

# Paper ringer to print

Please follow the instructions below:

1) please open Acrobat Reader.

Note: if you do not have this software, please download and install it.

To do this, please go to the official website of the software here <https://get.adobe.com/fr/reader/>

2) please open the file exclusively in Acrobat Reader.

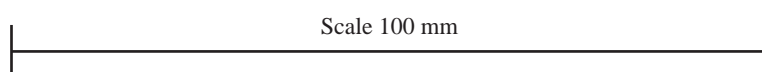

3) then click on the file, afterwards print, and a window with the print parameters opens.

4) please check the real size box and check if the scale is 100% customized.

5) subsequently validate the printing.

6) in order to verify that the document is correct after printing, please measure the line below.

It must measure 100 mm.

Note: we advise you to put directly on the paper ringer a ring or ideally an alliance to your size.
